# YEREL DEĞERLER KÜRESEL GELECEK

## Historical Artifacts / Ruins

Our main goal in our electrical installation and lighting solutions for historical monuments and ruins is to protect and emphasize our cultural heritage. In these projects that require sensitivity, we keep energy efficiency and electrical safety standards at the highest level and use special technologies that will not harm the authenticity of the artifacts. With LED-based lighting systems and remotely monitored energy management systems, we protect the traces of history, enrich the visitor experience and minimize energy consumption.

## ANCIENT CITY OF EPHESUS

- Facade and Landscape Lighting
- Renewal of Energy and Security Infrastructure
- Discovery and Installation of Security Cameras
- Turnstile Access Systems
- Information Screens
- Installation of Box Office Equipment
- Installation of Cabinet Systems

### Proje

Ministry of Culture and Tourism

### Yer

Efes Antik Kenti / İzmir

The ancient city of Ephesus is located in the Selçuk district of İzmir and is one of the most important trade and cultural centers of the ancient world. Founded in the 10th century BC, Ephesus is famous for its important buildings such as the Temple of Artemis, the Library of Celsus and the Grand Theater. Ephesus was included in the UNESCO World Heritage List in 2015. The ancient city is visited by thousands of tourists every year and fascinates with its rich historical heritage.
