

Historical Artifacts / Ruins

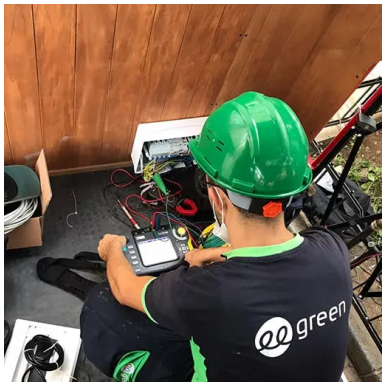

Our main goal in our electrical installation and lighting solutions for historical monuments and ruins is to protect and emphasize our cultural heritage. In these projects that require sensitivity, we keep energy efficiency and electrical safety standards at the highest level and use special technologies that will not harm the authenticity of the artifacts. With LED-based lighting systems and remotely monitored energy management systems, we protect the traces of history, enrich the visitor experience and minimize energy consumption.

JULY 15 MARTYRS BRIDGE

- Night Lighting System
- Renewal of Energy and Security Infrastructure

Proje
Ministry of Culture and Tourism

Yer
15 Temmuz Şehitler Köprüsü / İstanbul

The July 15 Martyrs' Bridge is located over the Bosphorus Strait and connects the continents of Europe and Asia. Opened in 1973 as the Bosphorus Bridge, it was renamed in 2016 in memory of the martyrs who lost their lives during the July 15 coup attempt. The bridge is one of the symbols of Istanbul and is used by thousands of vehicles every day.
