

Historical Artifacts / Ruins

Our main goal in our electrical installation and lighting solutions for historical monuments and ruins is to protect and emphasize our cultural heritage. In these projects that require sensitivity, we keep energy efficiency and electrical safety standards at the highest level and use special technologies that will not harm the authenticity of the artifacts. With LED-based lighting systems and remotely monitored energy management systems, we protect the traces of history, enrich the visitor experience and minimize energy consumption.

ÇANAKKALE MARTYRS' MEMORIAL

- Night Lighting System
- Renewal of Energy and Security Infrastructure

Proje
Ministry of Culture and Tourism

Yer
Çanakkale Şehitler Abidesi / Çanakkale

The Dardanelles Martyrs' Monument is located on the Gallipoli Peninsula of the Dardanelles and was built in 1915 to commemorate the Turkish soldiers who lost their lives in the Dardanelles War. Started in 1954 and completed in 1960, the monument is 41.7 meters high and sits on four large pillars. The Martyrs' Monument attracts thousands of visitors every year and reflects the meaning and importance of the Gallipoli War.
