

Historical Artifacts / Ruins

Our main goal in our electrical installation and lighting solutions for historical monuments and ruins is to protect and emphasize our cultural heritage. In these projects that require sensitivity, we keep energy efficiency and electrical safety standards at the highest level and use special technologies that will not harm the authenticity of the artifacts. With LED-based lighting systems and remotely monitored energy management systems, we protect the traces of history, enrich the visitor experience and minimize energy consumption.

- Renewal of Energy and Security Infrastructure
- Discovery and Installation of Security Cameras
- Turnstile Access Systems
- Information Screens
- Installation of Box Office Equipment
- Installation of Cabinet Systems
- Electricity Contracting

Proje
Ministry of Culture and Tourism

Yer
Serik / Antalya

Aspendos is an ancient Roman city located near the Serik district of Antalya. The city is especially famous for its well-preserved theatre. With a capacity of 15 thousand people, the theatre is still used today for concerts and events. Aspendos was an important trade and cultural centre during the Roman period. In addition, the ancient aqueducts are among the important structures of Aspendos and are considered as engineering wonders.
