

Historical Artifacts / Ruins

Our main goal in our electrical installation and lighting solutions for historical monuments and ruins is to protect and emphasize our cultural heritage. In these projects that require sensitivity, we keep energy efficiency and electrical safety standards at the highest level and use special technologies that will not harm the authenticity of the artifacts. With LED-based lighting systems and remotely monitored energy management systems, we protect the traces of history, enrich the visitor experience and minimize energy consumption.

Yer
Çeşme / İzmir

Çeşme Museum is located in Çeşme Castle in Çeşme district of İzmir. The museum, which hosts artefacts from the Ottoman period, exhibits historical objects especially from the Battle of Çeşme in 1770. The museum provides visitors with comprehensive information about Ottoman maritime history and the lifestyle of the period.
