

Historical Artifacts / Ruins

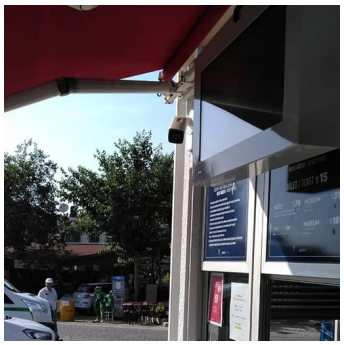

Our main goal in our electrical installation and lighting solutions for historical monuments and ruins is to protect and emphasize our cultural heritage. In these projects that require sensitivity, we keep energy efficiency and electrical safety standards at the highest level and use special technologies that will not harm the authenticity of the artifacts. With LED-based lighting systems and remotely monitored energy management systems, we protect the traces of history, enrich the visitor experience and minimize energy consumption.

- Installation of Cabinet Systems
- Electricity Contracting

Proje
Ministry of Culture and Tourism

Yer
Karacasu / Aydın

Aphrodisias is located in the Karacasu district of Aydın and is one of the important cult centres of the Roman period. Aphrodisias is especially famous for its sculpture school. Structures such as the Temple of Aphrodite, Odeon and Theatre in the city have been preserved throughout history. Aphrodisias Museum exhibits sculptures and other archaeological finds from this ancient city.
