

Historical Artifacts / Ruins

Our main goal in our electrical installation and lighting solutions for historical monuments and ruins is to protect and emphasize our cultural heritage. In these projects that require sensitivity, we keep energy efficiency and electrical safety standards at the highest level and use special technologies that will not harm the authenticity of the artifacts. With LED-based lighting systems and remotely monitored energy management systems, we protect the traces of history, enrich the visitor experience and minimize energy consumption.

- Renewal of Energy and Security Infrastructure
- Discovery and Installation of Security Cameras
- Turnstile Access Systems
- Information Screens
- Installation of Box Office Equipment
- Installation of Cabinet Systems
- Electricity Contracting

Proje
Ministry of Culture and Tourism

Yer
Didim / Aydın

Miletus is located in Didim district of Aydın and was an important port city of the ancient Greek world. Miletus, which raised important names in the fields of philosophy, mathematics and astronomy, was also a major trade centre. The Miletus Museum exhibits artefacts excavated from the ruins of the ancient city. Visitors can see important buildings such as the ancient theatre, Agora and Faustina Baths.
