

Historical Artifacts / Ruins

Our main goal in our electrical installation and lighting solutions for historical monuments and ruins is to protect and emphasize our cultural heritage. In these projects that require sensitivity, we keep energy efficiency and electrical safety standards at the highest level and use special technologies that will not harm the authenticity of the artifacts. With LED-based lighting systems and remotely monitored energy management systems, we protect the traces of history, enrich the visitor experience and minimize energy consumption.

- Installation of Box Office Equipment
- Installation of Cabinet Systems
- Electricity Contracting

Proje
Ministry of Culture and Tourism

Yer
Datça / Muğla

Knidos is located in Tekir Cape on the Datça Peninsula of Muğla. Knidos, one of the ancient Greek cities, is known as the centre of trade, science, art and philosophy. Important structures of the city include the theatre, temples and Necropolis. The most remarkable structure of Knidos is the Aphrodite Statue made by the famous sculptor Praxiteles. Knidos welcomes visitors as a place where history and natural beauties are intertwined.
