

## Historical Artifacts / Ruins

Our main goal in our electrical installation and lighting solutions for historical monuments and ruins is to protect and emphasize our cultural heritage. In these projects that require sensitivity, we keep energy efficiency and electrical safety standards at the highest level and use special technologies that will not harm the authenticity of the artifacts. With LED-based lighting systems and remotely monitored energy management systems, we protect the traces of history, enrich the visitor experience and minimize energy consumption.

Hacı Bektaş Veli Müzesi / Nevşehir

The Hacı Bektaş Veli Museum is located in the Hacıbektaş district of Nevşehir and is dedicated to the famous 13th century Islamic philosopher and mystic Hacı Bektaş Veli. The museum contains the mausoleum of Hacı Bektaş Veli, his lodge and the items used by his disciples. Opened in 1964 as a museum, it is one of the most important centres of Alevi-Bektashi culture and is visited by thousands of visitors every year.
