

Historical Artifacts / Ruins

Our main goal in our electrical installation and lighting solutions for historical monuments and ruins is to protect and emphasize our cultural heritage. In these projects that require sensitivity, we keep energy efficiency and electrical safety standards at the highest level and use special technologies that will not harm the authenticity of the artifacts. With LED-based lighting systems and remotely monitored energy management systems, we protect the traces of history, enrich the visitor experience and minimize energy consumption.

Ministry of Culture and Tourism

Yer
Denizli

Pamukkale is located in Pamukkale district of Denizli and is famous for its travertine terraces. This area, which also includes the ruins of the ancient city of Hierapolis, is on the UNESCO World Heritage List. Pamukkale offers a fascinating view with white travertines formed by natural hot water springs. Known as a healing centre since ancient times, Pamukkale is visited by thousands of tourists every year.
